SKILLS

Proficient: HTML5, CSS

Moderate: JS, TypeScript, Node.js, Python, Linux, [RHCSA](#)

Beginner: Git

PROJECTS

25,Nov - [kasper site](#)

30,Nov 2021 • Using only CSS and HTML5 without any frameworks I managed to code this site.

- Site is now responsive on all devices.

14,Feb - [Storefront-Backend](#)

21,Feb 2022 • Made the Backend API for a store website includes dealing with PostgreSQL database

- Testing the API endpoint with Jasmine and Supertest libraries

14,Feb - [Image Processing API](#)

21,Feb 2022 • Made an API that resize images using TypeScript and Node.js and Express.

- Application can successfully cache requests made to it.

14,Feb - [Udagram](#)

21,Feb 2022 • Made a pipeline using CircleCI to deploy full stack app on AWS.

- Every new commit will be pushed to main branch will successfully be deployed to AWS.
